FlexLok tab system virtually eliminates harmful VOC’s, this odorless dry installation system can be used in place of the traditional wet spread adhesives method. This system is performance without compromise and can be installed on any substrate. FlexLok provides a faster install with the flexibility of a floating modular floor with no glue.

• Declare Red List Free

• HPD and CRI Green Label Certified

• FlexLok system works on all Mohawk modular products with the exception of the Walk Off Tile or cushion backed products

• EcoFlex ICT Backing – Moisture conditions not to exceed 80% RH

• EcoFlex NXT & EcoFlex Matrix - No moisture testing is required, provided no signs of visual moisture are present and existing adhesive has been reduced down to a minimal residue.
Install Methods – Tile
24x24

Quarter Turn, Monolithic, and Multi-Directional
