Explore artistic solutions with Durkan’s Component + Corridors. By combining and reconfiguring the layout of the medallions, extensions and caps shown, you can create quality, customized corridors both aesthetically pleasing and functionally filling.
Antonia

The name Marie Antoinette brings to mind a period of time in which opulence, lavish spending, and exquisite decor were the way of the aristocracy. With history as a backdrop, the Antonia collection reminds us of the splendor of such places as the Royal Palace at Versailles. This collection was conceived as a tribute to the traditions of this era, with the beauty and elegance of a style that hints at romantic intrigue, dare we forget about the guillotine. With exquisite pattern design befitting royalty, Antonia revives traditional styling with the simple elegance of an era so deeply marked into history.
