CIRANDA

The Ciranda collection is a contemporary abstract interpretation based on the thriving trends of minimalism and textural styling brought to life in a variety of detailed layered tones and textures which overlay into blended fashions with silhouettes of organic, industrial & technologically inspired shapes to give a dynamic combination of more modern and sophisticated elements.

“Ciranda is also the name of a dance which inspired this collection. Travelling over recent years I have been fortunate to visit places with many traditional cultures and dances, whether it’s been Europe or the Islands of Fiji or South America. All wearing flowing fabrics or natural grasses and sometimes adorned with local flora. To me dance is a time to be expressive and creative, following a rhythm, and to feel light hearted and free. I hope these designs bring these feelings and atmosphere to every place they fill.”

—Virginia Langley
