MEDELLA

The Healthy Environments collection is inspired by the alluring, soothing colors and textures of species native to the desert of the American Southwest. With the addition of Medella, Mohawk Group enhances its collection of nature-inspired products by introducing a homogeneous sheet design inspired by the naturally occurring basalt columns that are formed by underwater volcanic eruptions.

Medella is comprised of a 100% non-ortho-phthalate construction and coated with polish-optional M-Force™ Enhanced Urethane for easy and cost-effective maintenance. The low contrast offered in the product’s 24 colorways and the ability to be heat-welded makes it ideal for surgical suites and a variety of other healthcare applications. Medella is also perfectly suited for specification in education interiors.

Drawing inspiration from biophilic design, the Healthy Environments collection of coordinating homogeneous sheet, resilient sheet and carpet plank was created to advance healing and productivity in healthcare interiors.

About Mohawk Group

As the world’s leading producer and distributor of quality commercial flooring, Mohawk Group believes that better floor coverings emerge from better design, innovation, sustainability, project solutions and operational excellence. Mohawk Group addresses the unique challenges and opportunities in contract interiors with a comprehensive carpet and hard surface portfolio of all types and price points. As the commercial division of Mohawk Industries, the company has a heritage of craftsmanship that spans more than 130 years. To learn more about our full line of flooring products, please visit MohawkGroup.com.
